

# ARMONIA NEWSLETTER

## JULY-SEPTEMBER 2018

**Organización Armonía, A.C.**

### Prayer requests

1. Please pray for the three scholars that will be accepted into the Oaxaca Residence.
2. Pray for Eulogio's recovery- he hurt his foot. We are grateful because He is fine and recovering rapidly.
3. Pray for the college scholars as they get used to college.
4. We are thankful for the Medical Clinics. They were a blessing for everybody.
5. We thank God for everyone who supports our work.
6. Pray for the completion of the last part of the Oaxaca Student Residence.

As a safety measure for Armonia, we kindly ask you to not share or post this newsletter in public domains.

This newsletter is trimestral.

### **Back to high school!**

The Armonia scholars are back at school with renewed energy. Dalia, Jovita, Lupe's sister, and Marcelo, Eulogio's brother are our new scholars. They live at the Oaxaca Student Residence with Deysi, Hortencia, Gaby, Meche, Eulogio, and Moises.

## The 2018 Medical Clinics

This year's Medical Clinics took place near the Huatulco City, Oaxaca area. The first day, we served in a village called El Zapote, the second day in San Isidro Apango, the third day in Santa María Huatulco and the fourth and last day in Bahías de San Agustín.

We gave free eye doctor, physician, pediatric, psychological, blood-testing, cardiology, physical therapy, and attorney services, as well as Bible school for children, medicines, vitamins, eye drops, glasses, and many other things. Lots of people saw God's love in their lives.

At church on Sunday, we gave thanks and had a wonderful service. That day's Medical Clinic took place right there at church

The last day of the Medical Clinic took place at the beach!

According to our lists, around 900 people received some kind of service, and many people decided to follow God and accept Him into their lives after this experience. Pastor Joel's church in the Santa Maria Huatulco community will minister the new Christians.

## Current projects

Besides our trees, we also have corn and beans. The parents of the scholars help saw them every time they come to spend time with their children.

We also saw radish, carrot, beet, spinach, lettuce, melon, lime, orange, pomegranate, kumquat, chayote, and cilantro. We sold the remaining chicken to the people of the Etla community.

## Learning English and advanced chess

Eulogio, one of our new older students is teaching the other students a basic English course every day after dinner. Moises, who is a student at the Oaxaca Technology Institute is teaching advanced chess skills.

## Church

Sunday at Church with the high school scholars. The scholars go to their favorite church on Sundays, and have a Bible study once a week.

## College Scholars

The new college scholars- Ariadna, Amancio, Marco, Carlos, Moises, and Eulogio are studying robotics, business administration, music, and civil engineering.

Thank you for your constant support! May God bless you.
